

Centerville Takes 1st and 2nd in the DTMA Bots Competition

Centerville High School took 1st and 2nd place in the annual Advanced Manufacturing/Technology Exhibition battling robot competition held at the Dayton Airport Convention Center. This event allows the student to incorporate many of the Engineering fundamentals learned in the Project lead the Way classes into an action packed event. There were 37 other teams from the Miami Valley competing in the event.

Judges and audience alike watch in awe as Centerville's "Beastin' it" slams "Bender" into the wall at the Advanced Manufacturing/Technology Exhibition battling robot competition held at the Dayton Airport Convention Center on 10/22/09.
